NCCER partnered with NACB and Prov to develop the Rigger and Signal Person Certification Programs. The programs consist of written assessments and practical examinations that meet or exceed current ASME B30 consensus safety standards, as well as the amended OSHA 29 CFR Part 1926 standards for rigger and signal person qualifications.

Please sign up through your member representative as class sizes are limited.
The Rigger course will be offered two nights a week from 6pm - 8:30 pm.

To download an application please visit our website at www.abccentralcal.org

Fax completed applications to: (661) 392 - 9076.

For further questions contact our office at: (661) 392 - 8729.
