

Central California
Chapter

Associated Builders and Contractors Central California Chapter in conjunction with UTA (Utility Training Academy) offers:

Line Locating Training

Learning Objectives:

Course designed to address the following competencies:

- demonstrate skills needed to perform accurate line locates
- demonstrate the ability to identify potential hazards onsite
- demonstrate the ability to perform a visual walk through inspection of the job site.
- demonstrate knowledge science behind how utility locating equipment works.
- demonstrate ability to select proper technologies and application methods to create and locate signal fields.
- demonstrate the skills to select the appropriate frequency, access point and locate method needed to safely and accurately locate and mark underground facilities.
- Demonstrate the visual observation skills to identify, site hazards and connection points.
- Demonstrate knowledge of state one call requirements

Fees and Registration

Please call the chapter office for registration dates. Special classes scheduled as needed with a minimum of 10 people.

Course hours are 8:00am-4:00pm.

\$250 for ABC Members
\$300 for Non-Members

Training is held at:

ABC Central California Training Facility
19466 Flightpath Way
Bakersfield, CA 93308
(661) 392-8729

Training Objectives This information packed training addresses both the art and science behind underground utility line locating and marking as well as state laws and marking standards. Course provides a balanced mixture of classroom training combined with hands-on field instruction performed outdoors. Participants will gain an A to Z understanding of the fundamentals of line locating. Special Emphasis is placed on mastery of the electronic detection equipment and troubleshooting techniques to solve utility locating puzzles. Participants will also gain an overall understanding of utility and pipeline construction and design.

Who Should Attend? Designed for experienced field employees responsible for line location underground line construction and maintenance duties

Special Compliance requirements approved for this Workshop:

- *Designed to help meet CalOSHA Qualification Requirements for all personnel responsible for Subsurface Utility line locating and marking prior to excavation activities in California. Compliance identified in CA SB 1359 and California Government Code Sections 4216 through 4216.9*
- *This workshop is also approved for Continuing Educational Hours or Training Credits for Water Operator Certification renewals in California, Florida, Georgia, New Mexico, Ohio, Nevada, Arizona, Oklahoma and a growing number of states.*
- *Workshop approved for 8 contact hours for CWEA certificate holders for credit toward the continuing education requirement for re-certification.*
- *Workshop designed as technical skills enhancement training for company employees. UTA is a NULCA Training Member in good standing.*

Certification

Upon successfully completing the course, a certification will be mailed to the class attendees.

*All cancellation requests must be received 48 business hours before scheduled class. Cancellation request must be submitted in writing via e-mail (membership@abccentralcal.org) or fax (661-392-9076). Individuals who fail to notify ABC within 48 prior to class will be subject and charged the full class fee; there will be no refunds or rescheduling. NO EXCEPTIONS.
